7 December 1967

TSD/BAB MEMO #313-67

MEMORANDUM FOR: Chief, MBS/ORD

SUBJECT : TSD/BAB Review of MBS Projects

25X1 1. [ ] MBS, devoted about 3 hours on  
27 November in briefing me and answering questions on the  
entire series of MBS projects as projected for FY69. This  
25X1 clear and concise presentation was very much appreciated.  
[ ] temporarily detailed to BAB, sat in on the  
briefing and is now following up with more detailed brief-  
ings and reading of progress reports, which I hope will  
keep us more knowledgeable of your plans and progress. We  
appreciate the time and effort MBS has given to [ ]  
briefing. 25X1

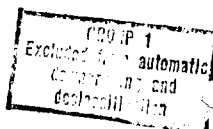

25X1 2. [ ] briefed me in the research she  
is monitoring on photo interpretation performance enhance-  
ment (I presume this work is covered under M-3001). While  
this project is oriented toward photo interpretation, which  
is not a function of TSD/BAB, certain aspects of the equip-  
ment developing and soft ware programming may eventually  
have some relevance to the [ ] problem. 25X1  
I would revise the TSD rating from 0 to II on this basis.

[ ]  
Chief, TSD/BAB 25X1
